

-Airl is wonderful for my family and I. I am raising my 3 kids alone, and Airl is something we all sing along with and enjoy listening to.-Without Airl, I honestly wouldn't listen to the radio, I'd have to buy the CDs that Airl plays.- I think Airl is of the public interest because so many people are looking for help to get through the day, or life, and the music played here is encouraging and can help give one hope.
